## *Electric Membership Corporation*

June 16, 2014

*Stuart Turille  
Town Manager  
Town of North Topsail Beach  
2008 Loggerhead Court  
North Topsail Beach, NC 28460*

*Dear Mr. Turille,*

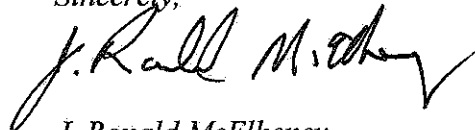

*Jones-Onslow Electric Membership Corporation provides electric distribution services to the Town of North Topsail Beach.*

*Electrical distribution services have been available to this area, after World War II, when the Department of the Navy sold the existing electrical system to Jones-Onslow EMC. The citizens of the island north end had "direct access" to electrical service if they so choose from the end of World War II to current day.*

*Electrical distribution services were available to each lot or building site, included in the CBRS unit L06, prior to the 1982 mapping by US Fish and Wildlife Service. The main distribution system was in place prior to the 1982 date and electrical services, including metering, were provided upon construction on lots and sites.*

*Jones Onslow will provide additional information as needed.*

*Sincerely,*

*J. Ronald McElheney  
Chief Executive Officer*
